

# ELECTRONIC WASHROOM RANGE

# USER EXPERIENCE PUT FIRST

---

In today's world, commercial washrooms need to achieve a lot. They must be modern and stylish and meet sustainability targets all the while in the confines of ever tightening budgets.

That's why we've developed our Electronic Washroom range. The sleek and stylish range of taps and urinal flushing controls has been carefully designed to provide functionality you can rely on while saving valuable resources.

It's the perfect cost-efficient solution for all commercial washroom environments.

## EVERYTHING YOUR COMMERCIAL WASHROOM NEEDS

- Sleek and stylish design – that compliments any washroom environment
- Great performance at low flow – at only 3.8Lpm, our electronic taps have one of the lowest flow rates on the market
- Reduced water consumption – with specialist timed flow technology our non-touch sensor taps respond to hand movement and turn off immediately when hands are removed from under the tap, reducing water consumption and saving valuable resources
- Sensor detection – our electronic urinal controls only flush after it's verified a user is present, significantly reducing the risk of false operation
- Improved hygiene – non-touch operation significantly reduces the spread of bacteria, making your washrooms more hygienic
- Reliable – superior quality internal components ensure the product range continues to work efficiently, even under high usage

# THE RANGE

## RADA TD7 PRE-MIXED WASHBASIN SENSOR TAP

---

PRODUCT CODE: 2.1942.008 & 2.1942.009

---

- Touch-free, electronically controlled IR sensor washbasin tap
- For cold or pre-mixed water
- Power supply or battery for flexibility
- Integral solenoid – neat & easy to install
- Modular two-piece construction
- Temporary-off function for cleaning, activated using the infrared-touch field
- Built in water supply connection with flexible high-pressure hoses and filters
- Dual infrared sensors with electronic automatic setting feature
- Reliable magnetic valve and 3.8lpm economy aerator activated / adjusted via IR-touch field
- Water supply connection with flexible high-pressure hose and filter

## RADA MD7 MIXER WASHBASIN SENSOR TAP

---

PRODUCT CODE: 2.1942.010 & 2.1942.011

---

- Touch-free, electronically controlled IR sensor washbasin tap
- With temperature mixing (non-thermostatic)
- Power supply or battery for flexibility
- Integral solenoid – neat & easy to install
- Modular two-piece construction
- Temporary-off function for cleaning, activated using the infrared-touch field
- Built in water supply connection with flexible high-pressure hoses and filters
- Dual infrared sensors with electronic automatic setting feature
- Reliable magnetic valve and 3.8lpm economy aerator

## RADA FE9 URINAL FLUSHPLATE AND URINAL FLUSH INSTALLATION BOX

---

PRODUCT CODE - FLUSHPLATES:  
2.1942.005 & 2.1942.006

---

- Robust stainless-steel
- Power supply or battery for flexibility
- Dual infrared sensors with automatic setting feature
- Reliable solenoid valve
- Temporary-off function for cleaning, activated using the IR touch field
- Requires urinal installation box

PRODUCT CODE - INSTALLATION BOX: 2.1942.007

---

- Concealed housing
- Valve body with stop valve and flush connector
- Reliable solenoid valve (minimal level of water pressure surge)

## THE RADA WAY

Rada has been at the forefront of designing and manufacturing water controls and washroom products across a range of sectors for the commercial buildings market for more than 80 years.

It believes people should use taps, showers and water outlets designed to keep users safe, prevent waterborne infections and conserve resources. It's uncompromising in its approach to reimagining the way its products are designed, made, installed and serviced.

## Rada – A Kohler Company.

Kohler brings together a number of market leading bathroom and shower brands including Rada, Kohler UK and Mira Showers. If you'd like to know more, please visit [www.kohlermira.co.uk](http://www.kohlermira.co.uk)
