AN INTEGRATED SERVICE AND
PRODUCT PACKAGE, INCLUDING
PROGRAMMABLE RADA S.PA 1
PANELS WITH 425LC MIXERS

RESULTS

REFRESHED, MORE EFFICIENT
WASHROOMS, FOR INCREASED
SATISFACTION WITH WATER SAVINGS
AND TOTAL PEACE OF MIND

Bredon Star Rugby Club offers a calendar packed full of adult and junior team fixtures throughout the season. Plenty of rugby matches means plenty of mud, so the club wanted to make sure its washrooms could provide players with a safe, clean, comfortable post-match experience.

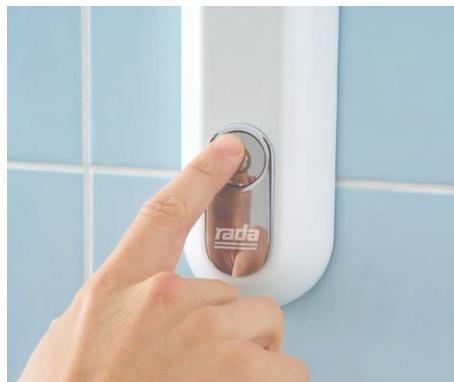

When refurbishing its facilities, the club turned to Rada for support.

"After installing Rada showers 20 years ago, they were the first people I called when we decided on a refurb," said Alistair Green, Vice President of the club.

"Our players deserve a great shower after a rough session on the pitch. With our busy schedule, robust showers are a must. We needed facilities that could perform reliably and deliver safety and satisfaction for years to come."

"We chose Rada's S.PA 1 Shower Panels, which have proved a real success with the players," adds Alistair. "You can also programme the run times so that water isn't wasted – that helps with savings.

Being conscious of our environmental footprint is a key part of our ethos, so having showers that help reduce water and energy consumption is really important. Plus, it helps a lot to keep our facilities' running costs efficient."

["The added reassurance that Rada would be there to help service the products they made themselves, and the ability to have the cost spread over five years, really suited us."](#)

**Alistair Green, Vice President,
Bredon Star Rugby Club**

The club selected Rada's Integrated Service and Product (ISP) package which combines product, service, and support elements into one bespoke, costed plan.

"The combined service and product plan is perfect for us," says Alistair.

Rada's ISP package includes a comprehensive post-installation review to ensure optimal performance and a service plan which guarantees products are high performing now, and in future too.

"This really gave us confidence, because we knew that Rada had made sure their products would be set up to meet the specific requirements that we needed," explained Alistair. "And we've got the added reassurance of yearly preventative maintenance checks."

Rada make sure everything is taken care of by the people who know their products best – their team. "It's total peace of mind for us," says Alistair. "The new washrooms have been a smashing success with the players – even our visiting teams have noticed the improvement."

"We are so glad we went back to Rada – our best decision by far!"
