

Range: Neo Sensor

Ref: 57073 - Neo Sensor 7s Timeflow Wall Mounted Tap Mains 1.9L/min Extended Cords - AM_22-67

Working pressure :

- 1 to 5 bar

Flow :

- 7 sec time flow
- 1.9 l/min with integrated spray flow limiter
- High quality anti-limescale sprayer
- Anti-water-hammering design

Hydraulic supply :

- On Male G 1/2" (15x21) connection - Cold or premixed water
- 1,5m hydraulic extension cord &

Power supply :

- Transformer 230V AC / 7V DC

Material and colour finish :

- Injected metal and brass. Chrome plated.

Thermal resistance :

- Resistant to a temperature of 75°C for 30 minutes thermal shocks

Security :

- Automatic shutdown of solenoid valve in case of power failure or sensor error
- Duty flush 30s each 24h after last use

Delivered with :

- 1 Mounting assembly kit (Clamping & nut)
- 1 Filter gasket
- 1 solenoid valve
- 1 transformer

Standards and approvals :

- Brass in accordance with EN1982, EN12164 & EN1165
- 200-hour neutral salt spray resistant (NSS) in accordance with ISO 9227
- Reg4 Approval
